- React Bootstrap

PROFILE

Experienced Web Developer skilled in React JS, Mongo DB, Node JS, and Express JS. Experienced in full-stack development, with a focus on creating scalable and high-performance web applications. Seeking a challenging role to leverage expertise in delivering innovative solutions to contribute effectively to a dynamic team.

WORK EXPERIENCE

Project Developer

Hybritic Info, Bengaluru

Sep 2024 - Feb 2025

- Worked as a MERN Stack Developer and Trainer, actively contributing to both front-end and back-end development. Developed and optimized web applications using React, Node.js, Express, and MongoDB, ensuring high performance and scalability.
- In addition to development, played a key role in mentoring interns and trainees, guiding them through industry best practices, code reviews, and hands-on projects. Conducted training sessions on front-end and back-end technologies, helping them build strong foundations in full-stack web development.

Technical Trainer

Cambridge Infotech, Bengaluru

Jan 2024 - Aug 2024

- Designed and taught web development courses covering HTML, CSS, JavaScript, React, Node.js, and other modern technologies.
- Mentored and guided students to secure internships, demonstrating a strong commitment to their professional development and success.

MERN Stack Developer

Qua Quest Tech Solutions Pvt. Ltd, Bengaluru

Feb 2023 - Jan 2024

- My Primary responsibility involves crafting a dynamic and user-friendly admin panel utilizing React.js. In this role, I have successfully integrated modern design principles, leveraging CSS framework such as Bootstrap to ensure a responsive and visually appealing interface.
- My commitment to creating an efficient and seamless user experience is evidenced by my contributions to the development of the admin panel, enhancing the overall functionality and aesthetic of the E-learning platform.

EDUCATION

B.E Computer Science

**A J Institue of Engineering
and Technology**

2017-2021

HIGHER SECONDARY

GVHSS Chirakkara

2015-2017

CERTIFICATIONS

- **MERN From Scratch 2023 | eCommerce Platform**
- **MTA : Introduction to Python Programming**

SOFT SKILLS

- **FLEXIBLE:** Able to adapt to different tasks, technologies, and work environments, ensuring smooth collaboration and efficient problem-solving.
 - **PROBLEM SOLVING :** While coding fixed and sorted errors exceptionally.
 - **TEAM PLAYER:** Works well with others, collaborates effectively, and contributes to a positive and productive team environment.
 - **GOOD COMMUNICATION SKILL :** Ability to convey or share ideas effectively.
-

PROJECT

- E-commerce website

GitHub Link: [E-Commerce-github](#)

This is a website where people can pay and buy electronic items and admin can update delete and create products. It is created using React, Redux Toolkit, Expressjs, Nodejs and MongoDB.

Features

- Secure user authentication system for login and registration
- User-friendly interface to explore various product categories
- Cart implementation allowing addition/removal of items
- Carousel display showcasing popular or recommended items
- SEO strategies implemented for higher search engine visibility
- User profiles facilitating order history and account management
- Seamless checkout with step-by-step shipping and payment method selection
- Secure payment gateway integration for PayPal and credit card transactions
- Additional payment options enabled through Razorpay integration
- Technologies used : Reactjs, Redux Toolkit, Nodejs, Express, MongoDB, React Bootstrap.

MINI PROJECT

-Netflix Clone (React.JS)

GitHub Link: [Netflix-Clone](#)

A Netflix clone using TMDB API. Replicated Netflix's user-friendly interface, offering a vast library of movies and TV shows. Unique feature includes seamless trailer integration for an immersive viewing experience.

-Todo List (React.js)

GitHub Link: [Todo-List](#)

A Todo list serves as a digital task management tool designed to help individuals organize, prioritize, and keep track of their daily or long-term activities. This dynamic Todo list project features interactive task creation, real-time updates, and a responsive interface for smooth and efficient user experience.

-Static Webpages (HTML, CSS, Bootstrap)

GitHub Links: [My Portfolio](#), [Landing Page](#), [Harley Davidson](#), [Netflix](#), [Spotify](#)

Developed a responsive static webpage using HTML, CSS, and Bootstrap, ensuring a clean and modern design. Utilized Bootstrap's grid system and components to create a structured and mobile-friendly layout. Implemented smooth animations, hover effects, and interactive elements to enhance user experience. Focused on UI/UX principles, responsiveness, and performance optimization for a visually appealing and functional web page.
